Summary

Enthusiastic Software Developer with practical experience in Python, web development, and Generative AI applications. Quick learner with excellent analytical skills and a strong interest in enterprise software development. Looking to start my career in a dynamic and growth-oriented organization.

Technical Skills

AI & Prompt Engineering: ChatGPT / Gemini API, Prompt design, LangChain, RAG pipelines
Programming Languages: Python, JavaScript, HTML, CSS
Frontend Frameworks & Libraries: React, Bootstrap
Backend Technologies: Django, Flask, FastAPI, SQL, MongoDB, PHP
DevOps & Deployment: NGINX, Vercel, Render
Tools: Figma, Canva, Photoshop, VS Code, Git

Experience

Full Stack Developer — Intern

Infisq Innovations

- Developed full-stack applications with a focus on scalable and maintainable architecture.
- Built responsive and user-friendly interfaces using React.js and Tailwind CSS.
- Collaborated on end-to-end development, from UI design to backend integration.

Web Development (MERN Stack) — Intern

Craitrix Technologies

- Worked on full stack development using React.js, Django, and MySQL.
- Collaborated in team-based projects, contributing to both frontend and backend modules.
- Applied strong problem-solving skills to debug and optimize application performance.

Projects

Creatix AI Content Automation Platform

- Tech Stack:** React.js, Tailwind CSS, FastAPI, Python, Firestore, Firebase Auth, Gemini API
- Built an AI-powered web application for workflow automation with a responsive UI.
- Developed scalable frontend using React.js and Tailwind CSS.
- Implemented backend APIs with FastAPI and integrated AI services for intelligent automation.

AI Document Question Answering System

- Tech Stack:** Python, LangChain, Qdrant, FastAPI, Gemini API, React.js
- Built a Retrieval-Augmented Generation (RAG) system for document-based question answering.
- Implemented semantic search using Qdrant vector database and embeddings.
- Integrated Gemini API for context-aware response generation.
- Developed FastAPI backend and React.js frontend for document upload and querying.

Certificates

Front-End | *Microsoft* | HTML, CSS fundamentals, responsive design, and basic front-end development concepts.
Agentic AI | *Oracle* | LangChain, the OpenAI Agents SDK, a real MCP server, and agents run in production.
Python Fullstack | *Systech* | Full stack basics including HTML, CSS, JavaScript, and database integration concepts.
